**Sign in to ClassLink**

```
woodsj456
```

```
*******
```

Sign In

If you do not have your student number, you may locate it on Skyward or from your child’s teacher.

This is where students will log in with their last name first initial and the last three digits of their student id number (example: woodsj456). Then for their password, they will use the letters St followed by their full student number (St123456). (this is case sensitive)

Once in ClassLink, they will select the desired Tile for that program.
