PODCAST

Did you know that we have a **podcast**? The CCSBInnovates Podcast is THE podcast for Citrus County Schools! Where we shine a light on our amazing teachers, give you tangible teaching tips, technology tools, and deliver it all directly to your earbuds—in a quick and easy snack-sized package.

**Apple Classroom** is a powerful app for iPad that helps you guide learning, share work, and manage student devices. You can launch a specific app, website, or textbook page on any iPad in the class, share documents between teacher and students, or share student work on a TV, monitor, or projector using Apple TV or the Reflector app. You can even see which apps students are working in, mute student devices, assign a specific shared iPad for each student, and reset a student’s password. And when class ends, you can see a summary of your students’ activities.

UPDATES

*Delinda Beckner* has joined the Educational Technology team as an Application Support Specialist! We’d also like to welcome *Charles Watson* as our new Systems Support Specialist. We’d also like to wish *Laura Lopes* well as she begins a new journey as a Senior Application Support Specialist for Hernando County and *Dan Koch* as he begins a new position as a Professional Learning Specialist for Apple!

The **Instructional Technology Coaches** would love to visit your classroom or work with you to schedule a longer professional learning time to answer any questions you have, plan ways to purposefully engage students with iPad, or even take the reigns and demo a lesson using a technology tool you’re interested in with your class. Look for us on your campus this year—we’ll be doing frequent workshops—and always feel free to reach out via e-mail or Microsoft Teams.
The Teacher Resources Team in your Microsoft Teams library is chock full of resources, links, and relevant files specific to your content area and grade level. Head over there to see new items added daily pertaining to your focus. If you’re a staff member in our district, you should already be a member of the team!

We are pleased to offer Tech Time gatherings this year! Join us for voluntary pop-up innovation station time to sharpen your technology skills in the classroom and learn from the Instructional Technology team, as well as each other!

Training for the use of ClassLink can be completed via a 30-40 minute webinar. Visit the link above to register for one that fits your schedule.

Want to customize your Citrus County directory information? Here’s how!

1. Browse to https://www.citrusschools.org
2. Click Login at the top of the page.
3. Log in using your Office 365 username and password.
   User: LastNameFirstInitial@citrusschools.org  Password: Your Computer Password
4. After logging in, click your e-mail at the top of the page.
   kochd@citrusschools.org
5. Here, you can edit profile information, change your photo, and more!
